

We have now posted the Crosby Yearbook cap and gown portraits as well as the mini senior session on our secure ordering site. The portraits will be available for purchase until July 2012.

Portrait Folders

Each student has their own named folder with a pass word. The pass word is the last 4 digits of the phone number put on the form filled out before the session. You can select images from different folders to add to your shopping cart. This will benefit those parents who have twins.

Image Correction

All of the images purchased will be corrected to portrait quality. This means blemish's, glare on the face, perspiration on the face and so on. The cost of this is built into the package prices.

We also offer removal of braces and glass glare, however you will need to contact our studio within 8 hours of your order to get this service. We charge \$20.00 for each individual image. If you order a package with the same image for each print size, it will be a single charge.

Adding Name and Year

We can put the first name and year on the wallets. The charge for adding the name is \$20.00. You will need to contact our studio within 8 hours of your purchase to make arrangements to put your seniors first name and year at the bottom right hand side of the wallets.
